SEMNET, PLLC

Medical Care Provider Directory

*Serving
members of
Texan Plus*

I

Get Direct & Prompt Help From SEMNet

The health insurance plans that use SEMNet Doctors require that patients choose a Primary Care Physician. The chosen physician does the majority of care for the patient and coordinates the patient's care with specialists, diagnostic clinics, and hospitals.

The vast majority of medical problems do not require emergency room services or hospitalization. Some problems, however, cannot wait for tomorrow to get the attention they need. The SEMNet doctors have set up Urgent Care Clinics and diagnostic centers to deal with those patient needs. This is how it works:

1. You need to see a Doctor, but the office is closed or there are no appointments available. **Go to a SEMNet Urgent Care Center.**
2. You think you have an emergency, but are unsure about it. **Call a SEMNet Urgent Care Center and talk to their doctor.** He or she will either have you come to the center or will direct you to the best ER facility for your problem.
3. You need a test, but can't get the referral approved fast enough. **Call the SEMNet Medical Director or Care Coordinator.** They cut through all insurance company **red** tape. They can also direct you to a facility.

The Urgent Care Centers (see back cover), **Our Medical Director, Director of Care Coordination**, and our **Administrative Staff** are all listed in this directory. **Please call us first when you need help or have questions.** We cut the **red** tape.
